Date of birth: February 19,1997

CAREER OBJECTIVE

Dedicate, energetic and motivated team player seeking a career that would enable me to utilize into the Web developing field.

PROGRAMMING SKILL:

- **Frontend:** Html, CSS, Bootstrap, JavaScript, ES6, ReactJS, TypeScript
- **Backend:** NodeJS, Express, Postman, Mongo dB
- **Deploy Tools:** Firebase, Netlify, Heroku, GitHub

PROJECTS

Computer Repair
- Built a full stack web app that allows users to book a service and pay with a credit card from a home page.
- Users have their own dashboard where they can check the status of their product and post reviews.
- Admin can add, delete, and upgrade services, as well as update the status of consumer products. Also, add other admins to the login admin panel.
- Project Link: https://github.com/rishad190/computer-repair

Book Shop
- Created a full-stack web app that allows users to purchase a book and save all book purchasing data to their dashboard.
- Only the administrator has access to the admin panel and can add, delete, and change all book information. All book information is saved in a database, and all data is dynamically displayed on the home page.
- Used: JavaScript, React, Mongo DB, Express, React router, HTML/CSS
- Project Link: https://github.com/rishad190/Book-shop

Riders-Bangladesh
- Users may build an account using their email address or a Google account, and then choose any mode of transportation.

- It all comes down to firebase authentication and react router. A website can be easily created and accessed by the user.
- Used: JavaScript, React, React router, HTML/CSS
- Project Link: https://github.com/rishad190/Rider-bd

EXTRA-CURRICULAR ACTIVITIES
- **Workshop:**
  1. Workshop on line follower robot making at BUET.
  2. PCB design at NSU
- Line follower builder
- Robosocer builder
- Photographer
